 Nagpur, India

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of experience building and deploying scalable web applications using React.js, Node.js, Express, MongoDB, and PostgreSQL. Skilled in developing RESTful APIs, integrating databases, and designing responsive UI components. Adept at performance optimization, agile collaboration, and modern web architecture. Passionate about delivering high-quality, maintainable, and secure web solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Python, Django, RESTful APIs

Database: MongoDB, PostgreSQL, MySQL, SQL

Data Analysis: Power BI, MS Excel

Other Tools: Git, GitHub, VS Code, Postman, Figma, WordPress

Soft Skills: Leadership, Team Collaboration, Code Review, Client Communication, Task Management

PROFESSIONAL EXPERIENCE

Full Stack Developer | VKSoftech Solution LLP | Nov 2024 – Present | Remote, India

Cosmical Event Planner Website

- Developed the complete frontend for an event planning and booking platform using React.js, focusing on clean design, responsiveness, and intuitive user flows.
- Created modular, reusable UI components and integrated them with backend REST APIs to display real-time event data and booking statistics.
- Promoted to Team Leader and Frontend Developer, managing a small development team while contributing to the project's core features.
- Conducted code reviews, delegated tasks, maintained delivery timelines, and collaborated with backend and design teams.
- Currently serving as a Maintenance Developer, responsible for ongoing updates, feature enhancements, and system optimization to ensure smooth platform performance.
- Balanced technical development and leadership duties to ensure consistent delivery and quality improvements.

Lucky 12 Fruit Game

- Developed responsive web applications for interactive fruit-dealing games using JavaScript, React.js, HTML, CSS, and Node.js.
- Designed dynamic, engaging UI components that improved user interaction and gameplay.
- Integrated real-time game logic with backend APIs for seamless live experiences.
- Collaborated with backend engineers to manage API communication and data synchronization.
- Focused on optimizing performance for real-time environments and contributing to both frontend and backend development tasks.

Joyaon Picnic Website

- Designed and implemented user-friendly dashboards and interactive features using React.js and Node.js.
- Built reusable, modular components aligned with scalable design systems.
- Collaborated with backend teams to integrate real-time data and enhance user experience.
- Delivered clean, responsive code as part of a full stack development process.
